ACCOMMODATION IN MATERA

Matera offers a unique range of accommodation, from contemporary hotels in the upper town to historic residences and cave hotels carved into the ancient Sassi.

When choosing where to stay, location is just as important as the style of the property. Accommodation **inside the Sassi** offers an extraordinary experience and places guests in the heart of historic Matera, but access may involve cobbled streets, slopes, steps and ZTL restrictions.

Accommodation **outside the Sassi** generally offers easier vehicle access, more straightforward luggage handling and convenient connections with the rest of the city.

Walking times indicated below are approximate. Due to Matera's unique urban landscape, actual walking times may vary.

To make your choice easier, we have divided our accommodation selection into Luxury Hotels and Comfort & Traditional Hotels, and further distinguished between properties located inside and outside the Sassi. For each property, you will find practical information on location, access, parking, services and approximate distances from the wedding venues.
